

Hansen Cottage

Conference Style Housing

Made possible by donations through the Dane G. Hansen Foundation, this conference style facility was built in 1977 by the Rock Springs staff. Hansen is located on the south end of the center, and has a layout similar to that of Preston and Finnup cottages. The building has 16 air conditioned rooms, each with its own shower and toilet. Hansen can accommodate a maximum of 80 people at one time. This cottage is popular with family reunions or camp groups for its spacious lobby and economical pricing. For more information, please contact Rock Springs by calling (785) 257-3221 or emailing administration@rocksprings.net.
