

Weatherwax Cottage

Recently Renovated!

Rock Springs most recently renovated conference-style residence is Weatherwax Cottage. Originally built in 1969, the facility was remodeled in 2007 and remains a popular choice due to private sleeping rooms and a comfortable lobby. The renovation provided several much needed changes, such as central heating and air conditioning, more spacious sleeping rooms, a new kitchenette and updated furnishings.

Weatherwax is available year-round and hosts 25 persons at full capacity. This popular residence is composed of seven separate sleeping rooms; room number one is a handicap accessible suite, including a private, accessible restroom. Rooms two through seven each hold two sets of bunk beds, and provide ample room for storing luggage. Guests have access to two large restrooms which are centrally located. A stylish lobby area with comfortable seating, as well as a fireplace, make Weatherwax a popular choice for fall and winter getaways. The kitchenette, equipped with coffee maker, microwave and small refrigerator, adds to the modern appeal. For more information, please contact Rock Springs 4-H Center by calling (785) 257-3221 or send email to administration@rocksprings.net.
